Foreword

Engine Overhaul

Part of the operations illustrated within this manual can be partially executed while the engine is assembled on the vehicle, depending on the room available for access to the engine and on the equipment application as well.

NOTE: With regard to the engine disassembly operations, please apply for information consulting the specific manual.

The following information relates to the engine overhaul operations only for what concerns the different components customizing the engine, according to its specific duties.

In section "General Overhaul", all the operations of engine block overhaul have been contemplated. Therefore the above mentioned section is to be considered as following the part hereby described.

Safety rules

Standard safety prescriptions

Particular attention shall be drawn on some precautions that must be followed absolutely in a standard working area and whose non fulfillment will make any other measure useless or not sufficient to ensure safety to the personnel in charge of maintenance.

Be informed and inform personnel as well of the laws in force regulating safety, providing information documentation available for consultation.

- Keep working areas as clean as possible, ensuring adequate aeration.
- Ensure that working areas are provided with emergency boxes, that must be clearly visible and always provided with adequate sanitary equipment.
- Provide for adequate fire extinguishing means, properly indicated and always having free access. Their efficiency must be checked on a regular basis and the personnel must be trained on interventon methods and priorities.
- Organize and identify specific exit points to evacuate the areas in case of an emergency, providing for adequate indications of the emergency indications of the emergency exit lines.
- Smoking in working areas subject to fire danger must be strictly prohibited.
- Provide warnings throughout adequate boards signaling danger, prohibitions and indications to ensure easy comprehension of the instructions even in case of an emergency.

Prevention of injury

- Do not wear unsuitable clothes for work, with fluttering ends, nor jewels such as and chains when working close to
 engines and equipment in motion.
- Wear safety gloves and goggles when performing the following operations:
- · · filling inhibitors or anti-frost
 - · lubrication oil topping or replacement
 - utilization of compressed air or liquids under pressure (pressure allowed < 2 bar (29 psi)).
- Wear safety helmet when working close to hanging loads or equipment working at head height level.
- Always wear safety shoes and clothes adhering to the body, better if provided with elastics at the ends.
- Use protection cream for hands.
- Change wet clothes as soon as possible.
- In presence of electrical current exceeding 48 60 V verify efficiency of earth and mass electrical connections.
 Ensure that hands and feet are dry and execute working operations utilizing isolating foot boards. Do not carry out working operations if not trained for.
- · Do not smoke nor light up flames close to batteries and to any fuel material.
- Put the dirty rags with oil, diesel fuel or solvents in anti-fire specially provided containers.
- Do not execute any intervention if not provided with necessary instructions.
- Do not use any tool or equipment for any different operation from the ones they've been designed and provided for.
 Serious injury may occur.
- In case of test or calibration operations requiring engine running, ensure that the area is sufficiently ventilated or utilize specific vacuum equipment to eliminate exhaust gas. Danger: poisoning or death.

During maintenance

- Never open filler cap of cooling system when the engine is hot. Operating pressure would provoke high temperature with serious danger and risk of burn. Wait until the temperature decreases under 50 °C (122 °F).
- · Never top up an overheated engine with cooler and utilize only appropriate liquids.
- Always operate when the engine is tuned off; when particular circumstances require maintenance intervention on running engine, be aware of all risks involved with such operation.
- Be equipped with adequate and safe containers for drainage operation of engine liquids and exhaust oil.

- Keep the engine clean from oil spills, diesel fuel and or chemical solvents.
- Use of solvents or detergents during maintenance may originate toxic vapors. Always keep working areas ventilated. Whenever necessary wear safety mask.
- Do not leave rags impregnated with flammable substances close to the engine.
- Upon engine start after maintenance, undertake proper preventing actions to stop air suction in case of a runaway speed rate.
- · Do not utilize fast screw tightening tools.
- · Never disconnect batteries when the engine is running.
- · Disconnect batteries before any intervention on the electrical system.
- · Disconnect batteries from system before applying a load to them with the battery loader.
- After every intervention, verify that battery clamp polarity is correct and that the clamps are tight and safe from accidental short circuit and oxidation.
- Do not disconnect and connect electrical connections in presence of electrical feed.
- Before proceeding with pipelines disassembly (pneumatic, hydraulic, fuel pipes) verify presence of liquid or air under pressure. Take all necessary precautions bleeding and draining residual pressure or closing dump valves. Always wear adequate safety mask or goggles. Non fulfillment of these precautions may cause serious injury and poisoning.
- Avoid incorrect tightening or out of sequence. Danger: incorrect tightening may seriously damage engine's components, affecting engine's duration.
- Avoid priming from fuel tanks made out of copper alloys and/or with ducts not being provided with filters.
- · Do not modify cable wires: their lengths shall not be changed.
- Do not connect to the engine electrical equipment unless specifically approved by Iveco.
- Do not modify fuel systems or hydraulic system unless Iveco specific approval has been released. Any unauthorized modification will compromise warranty assistance and furthermore may affect engine correct working and duration.

For engines equipped with electronic controller:

- · Do not execute electric arc welding without having previously removed electronic controller.
- Remove electronic controller in case of any intervention requiring heating over 80 °C (176 °F) temperature.
- Do not paint the components and the electronic connections.
- Do not vary or alter any data filed in the electronic controller driving the engine. Any manipulation or alteration
 of electronic components shall totally compromise engine assistance warranty and furthermore may affect engine
 correct working and duration.

Respect of the Environment

- Respect of the Environment shall be of primary importance: all necessary precautions to ensure personnel's safety and health shall be adopted.
- Be informed and inform personnel as well of the laws in force regulating use and exhaust of liquids and engine drain oil. Provide for adequate board indications and organic specific training courses to ensure that personnel is fully aware of such law prescriptions and of basic preventative safety measures.
- Collect drain oils in adequate specially provided containers with hermetic sealing ensuring that storage is made in specific, properly identified areas that shall be ventilated far from heat sources and not exposed to fire danger,
- Handle the batteries with care, storing them in ventilated environment and within anti-acid containers. Warning: Battery exhalation represent serious danger of intoxication and environment contamination.

Fuel lift pump 20 - 28 Nm (14.8 - 20.7 lb ft) Cooling System and Components Water Pump M8x1.25x25 20 - 28 Nm (14.8 - 20.7 lb ft) Water outlet connection M8x1.25x35 20 - 28 Nm (14.8 - 20.7 lb ft) M8x1.25x70 20 - 28 Nm (14.8 - 20.7 lb ft) Fan support M10x1.5x20 28 - 38 Nm (20.7 - 28.0 lb ft) Fan pulley M6 8 - 12 Nm (5.9 - 8.9 lb ft)	Timing Pin Cap		30 - 35 Nm (22.1 - 25.8 lb ft)		
Cooling System and Components Water Pump M8x1.25x25 20 - 28 Nm (14.8 - 20.7 lb ft) Water outlet connection M8x1.25x35 20 - 28 Nm (14.8 - 20.7 lb ft) M8x1.25x70 20 - 28 Nm (14.8 - 20.7 lb ft) Fan support M10x1.5x20 28 - 38 Nm (20.7 - 28.0 lb ft) Fan pulley M6 8 - 12 Nm (5.9 - 8.9 lb ft)	Fuel injectors		55 - 65 Nm (40.6 - 47.9 lb ft)		
Water Pump M8x1.25x25 20 - 28 Nm (14.8 - 20.7 lb ft) Water outlet connection M8x1.25x35 20 - 28 Nm (14.8 - 20.7 lb ft) M8x1.25x70 20 - 28 Nm (14.8 - 20.7 lb ft) Fan support M10x1.5x20 28 - 38 Nm (20.7 - 28.0 lb ft) Fan pulley M6 8 - 12 Nm (5.9 - 8.9 lb ft)	Fuel lift pump		20 - 28 Nm (14.8 - 20.7 lb ft)		
Water Pump M8x1.25x25 20 - 28 Nm (14.8 - 20.7 lb ft) Water outlet connection M8x1.25x35 20 - 28 Nm (14.8 - 20.7 lb ft) M8x1.25x70 20 - 28 Nm (14.8 - 20.7 lb ft) Fan support M10x1.5x20 28 - 38 Nm (20.7 - 28.0 lb ft) Fan pulley M6 8 - 12 Nm (5.9 - 8.9 lb ft)	Cooling System and Components				
Water outlet connection M8x1.25x35 20 - 28 Nm (14.8 - 20.7 lb ft) M8x1.25x70 20 - 28 Nm (14.8 - 20.7 lb ft) Fan support M10x1.5x20 28 - 38 Nm (20.7 - 28.0 lb ft) Fan pulley M6 8 - 12 Nm (5.9 - 8.9 lb ft)			20 - 28 Nm (14.8 - 20.7 lb ft)		
Fan support M10x1.5x20 28 - 38 Nm (20.7 - 28.0 lb ft) Fan pulley M6 8 - 12 Nm (5.9 - 8.9 lb ft)	Water outlet connection	M8x1.25x35			
Fan support M10x1.5x20 28 - 38 Nm (20.7 - 28.0 lb ft) Fan pulley M6 8 - 12 Nm (5.9 - 8.9 lb ft)		M8x1.25x70	20 - 28 Nm (14.8 - 20.7 lb ft)		
Fan pulley M6 8 - 12 Nm (5.9 - 8.9 lb ft)	Fan support	M10x1.5x20

Tool No.	Description	Image
380000301	Revolving engine stand	REVOLVING STAND 1
380000665	Crankshaft front seal puller	
380000663	Crankshaft rear seal puller	REARSEALPULLER 3
380001099	Injector puller	INJECTORPULLER 4

Tool No.	Description	Image
380000666	Crankshaft front seal installer	FRONTSEALINSTAL 5
380000664	Crankshaft rear seal installer	
380000670	Oil filter wrench	OILFILTERWRENCH 7
380000302	Valve spring compressor	VALVESPRINGCOMP 8

Thank you so much for reading. Please click the "Buy Now!" button below to download the complete manual.

After you pay.

You can download the most perfect and complete manual in the world immediately.
