Grain-maize conversion	21

Preface

Preface..... 3

Preface

1	Introductory notes	5
2	Important warnings.....	6
3	Identification number	7

1 **Introductory notes**

- This manual is divided into sections numbered with two-digit numbers, each section having independent page numbering. For quick reference, these sections have the same identification number and description as the relevant Flat Time Rate Manual.
- The subjects covered and the information sought can easily be found using the index on the following pages.
- The information in this manual was updated on the date shown on the booklet. As AGCO is constantly improving its product range, some information may not be updated due to modifications made for technical or commercial reasons as well as for compliance with legal requirements in the various countries. If there are any inconsistencies, contact our AGCO Sales and Service Networks.

2 Important warnings

- **Warning: Some of the models listed in this manual are not marketed in your country. For more details, contact your dealer.**
- All repair and maintenance work listed in this manual must be carried out exclusively by the AGCO Service Network, in strict compliance with the instructions provided and using, where necessary, the special tools required.
- Anybody who carries out the above operations without scrupulously complying with the instructions shall be held personally liable for any damage caused as a result of their actions.
- The Manufacturer and all the organisations in its distribution chain, including (without limitation) national, regional or local dealers, reject any responsibility for damage due to the abnormal behaviour of parts and/or components not approved by the Manufacturer, including those used for the servicing or repair of the product manufactured or marketed by the Manufacturer. In any case, no warranty of any type is issued or imposed concerning the product manufactured or marketed by the Manufacturer for damage due to abnormal behaviour of parts and/or components not approved by the Manufacturer.
