WHEN THE WARNING LAMP LIGHTS

Change the engine air cleaner outer element	7-15
Draining the fuel filter water separator	7-16
Check the brake fluid level	7-17

EVERY 10 HOURS OR EACH DAY

Check the engine coolant level	7-18
Check the engine oil level	7-19
Check the remote control valve drain bottles	7-20
Check windscreen washer reservoir	7-21
Drain air reservoir on air operated trailer brake	7-21

FIRST 50 HOURS

Service operations	7-22
--------------------------	------

EVERY 50 HOURS

Clean the cab air filter	7-24
Clean the cooler section	7-26
Clean the SCR cover air ducts	7-27
All grease fittings	7-28
Check the front and the rear wheel nuts	7-35
Check the tire pressures and the tire condition	7-35

EVERY 100 HOURS

Inspect the poly V-belt	7-36
Inspect the compressor drive belt	7-37

EVERY 300 HOURS

Check the battery fluid level	7-39
Adjust the hand brake	7-41
Check the transmission oil level, the rear axle oil level and the hydraulic oil level	7-42
Check the 4WD front axle differential oil level and the hubs oil level	7-43
Check the front PTO gearbox oil level	7-44

EVERY 600 HOURS

Change engine oil and filter	7-45
Change the first stage fuel filter and the fuel filter element	7-47
Change the engine air cleaner outer element	7-49
Change the charge pump oil filter	7-50
Check the engine air intake connections	7-51
Check the transmission oil cooler pipe couplings	7-52
Clean the DEF/AdBlue in-line filter	7-53

EVERY 1200 HOURS OR ANNUALLY

Change the cab air filters	7-54
Change the main oil filter cartridge	7-55

Change the 4WD differential oil	7-56
Change the 4WD planetary hub oil	7-57
Change the front PTO gearbox oil	7-58
Grease the rear axle shaft bearing	7-59

EVERY 1200 HOURS OR EVERY 2 YEARS

Change the DEF/AdBlue in-line filter	7-60
Change the engine air cleaner inner element	7-61
Check the valve tappet clearance	7-62
Change the air brake drier reservoir	7-62
Change the poly V-belts	7-63
Change the transmission oil, the rear axle oil and the hydraulic oil	7-66

EVERY 2 YEARS

Change the air conditioning receiver drier	7-67
--	------

EVERY 1800 HOURS OR EVERY 2 YEARS

Change the engine breather filter	7-68
---	------

EVERY 3600 HOURS OR EVERY 2 YEARS

Change the DEF/AdBlue main filter	7-69
---	------

EVERY 3600 HOURS OR EVERY 4 YEARS

Change the engine coolant fluid - OAT type coolant	7-70
--	------

GENERAL MAINTENANCE

Cleaning the tractor	7-74
Check first stage fuel filter and water trap	7-76
Bleeding the fuel system	7-77
Hydraulic system hoses	7-78
Check the brake pedal latching/unlatching	7-78
Adjust the cab suspension (where fitted)	7-79
Headlight adjustment	7-80
Work light adjustment	7-80
Bulb replacement	7-81
Fuses and relays	7-84
Protecting the electronic and electrical systems during battery charging or welding ..	7-95

To the owner

General information

This manual has been prepared according to ISO 3600:1996 to assist you in the correct procedure for running-in, driving and operating and for the maintenance of your new tractor. Read this manual carefully. Your tractor is intended for use in normal and customary agricultural applications.

If at any time you require advice concerning your tractor, do not hesitate to contact your authorized dealer. He has factory trained personnel, genuine manufacturers' parts and the necessary equipment to carry out all your service requirements.

The specifications are provided for your information and guidance. For further information concerning your tractor and equipment, consult your authorized dealer.

All data given in this manual is subject to production variations. Dimensions and weight are approximate only. The illustrations do not necessarily show tractors in standard condition or imply that these features are available in all countries. For exact information about any particular tractor, please consult your authorized dealer.

Your tractor has been designed and built to give maximum performance, economy and ease of operation under a wide variety of operating conditions. Your tractor fulfills all requirements as specified in the Regulation (EU) No 167/2013 of the European Parliament and of the Council. Prior to delivery, the tractor was carefully inspected, both at the factory and by your dealer to ensure that it reaches you in optimum condition. To maintain this condition and ensure trouble-free operation, it is important that the routine services, as specified on page 7-13 of this manual, are carried out at the recommended intervals.

All persons training to operate, or who will operate this tractor should be old enough to possess a valid local vehicle operating permit (or meet other applicable local age requirements). These persons must demonstrate the ability to operate and service the tractor in correct and safe manner.

About this manual

This manual gives information for use of your machine, as intended and under the conditions foreseen by the manufacturer during normal operation and routine service and maintenance.

Read and understand; keep it in good condition and always safely store it in the provided pocket in the back of your seat for later easy retrieval.

This manual does not contain all the information related to periodical service, converting and repairs to be carried out by professional service personnel.

The table of contents page(s) are provided to have an overview of main manual's topics. A detailed alphabetic index is available at the end of this manual for locating specific items.

Normal operation

- Normal operation means the use of the tractor for the purpose intended by the manufacturer by an operator familiar with the tractor and the mounted or towed equipment and complying with the information for operation and safe practices, as specified by the manufacturer in this manual and by the decals on the tractor and the equipment.
- Normal operation includes the preparation and storage of the tractor, swinging components into work position and vice versa, adding or removing ballast and picking up and setting off attachments.
- Normal operation includes the adjustment and setting of the tractor and equipment, for the specific condition of the field and/or the crop.

Routine service

- Routine service and maintenance means activities that must be done daily by an operator familiar with the tractor characteristics and complying with the information for routine service and safe practices, as specified by the manufacturer in this manual and by decals on the tractor, in order to maintain its proper function. Routine service includes activities such as fueling, cleaning, washing, topping up fluid levels, greasing, replacing of consumable articles such as lamp bulbs.

Converting, periodical service and repair

- Periodical service means activities that must be done at defined intervals by trained personnel familiar with the tractor characteristics and which are complying with the information for periodical service and safe practices, as partly specified by the manufacturer in this manual and in other Company literature, in order to maintain the expected life time of the tractor.
- Converting means activities that must be done by professional service personnel familiar with the tractor characteristics and complying with the information for converting, as partly specified by the manufacturer in this manual, in assembly instructions or in other Company literature, in order to fit the tractor to a specific configuration.
- Repair means activities that must be done by professional service personnel only familiar with the tractor characteristics and complying with the information for repair, as specified by the manufacturer in the dealer's workshop manual, in order to restore the proper function of the tractor after a failure or degradation of performance.
