Tractors

Print No. 84264927 Ist edition

English 12/09

SECTION SUMMARY

- 1 Introduction and safety measures
- 2 General information, controls and instruments
- 3 Field Operations
- 4 Lubrication and Maintenance
- 5 Troubleshooting
- 6 Vehicle storage
- 7 Accessories
- 8 Specifications and Data
- 9 First 50-Hour Service Forms
- 10 Alphabetical Index

Electro-magnetic Interference (EMC)

This tractor complies with the European Regulations on electro-magnetic emissions. However, interference may arise as a result of add-on equipment which may not necessarily meet the required standards. As such interference can result in serious malfunction of the unit and/or create unsafe situations, you must observe the following:

• Ensure that each piece of non-New Holland equipment fitted to the tractor bears the CE mark.

CE

- The maximum power of emission equipment (radio, telephones, etc.) must not exceed the limits imposed by the national authorities of the country where you use the tractor.
- The electro-magnetic field generated by the add-on system should not exceed 24 V/m at any time and at any location in the proximity of electronic components.

Failure to comply with these rules will render the New Holland warranty null and void.

On page III is provided copy of the "EC" Declaration of Conformity (EC Declaration of Conformity according to 2006/42/EC).

The EC Declaration of Conformity is the manufacturer's declaration about equipment compliance to relevant EU provisions.

Please keep the original document in a safe place. Local authorities may require you to show this document in order to assure compliance of your equipment.

Translation of this declaration in your own country language is provided on the original document.

For your better and easier understanding of the document you will find original text reproduced hereafter together with some notes.

Clause of	EN
Cladde of	EC Declaration of Conformity
2006/42/EC	According to Directives 2006/42/EC
Annex II	
1.A.1	We, [1]
1.A.2	Represented by Giuseppe Gavioli, CNH Europe Holding S.A. 13, Rue Aldringen L–1118 Luxembourg
1.A.3	declare under our sole responsibility, that the product:
	Agricultural tractor
	Trade name: [2]
	Model: [3]
	Type: [4]
	Serial Number: [5]
1.A.4	to which this declaration relates, fulfills all the relevant provisions of Directives 2006/42/EC, amended by: [6]
1.A.7	For the relevant implementation of the provisions of the Directives, the following (harmonised) standards have been applied:
	• ISO 26322-1 part 1 or 2
	Other standards: see Operator's Manual
1.A.9	Place and date of the declaration: [7]
1.A.10	Name and signature of authorised person: [8]

HEALTH AND SAFETY RELATED STANDARDS APPLIED TO YOUR TRACTOR

- FOPS level on your tractor structure is not certified according to **OECD Code 10**.
- NOISE EMISSION LEVELS are rated according to 77/311/EEC.
- VIBRATION LEVELS are rated according to 78/764/EEC.
- ROPS PROTECTION is certified according to EN 15694.

NOTE: See safety Section 1 in this Manual for further explanation and details on above mentioned standards and specific terminology.

SECTION 1

INTRODUCTION AND SAFETY MEASURES

TO THE OWNER

GENERAL

This Manual has been prepared to assist you in the correct procedure for running—in, driving and operating and for the maintenance of your new tractor. Read this Manual carefully. Your tractor is intended for use in normal and customary agricultural applications.

If at any time you require advice concerning your tractor, do not hesitate to contact your New Holland dealer. He has factory trained personnel, genuine manufacturers' parts and the necessary equipment to carry out all your service requirements.

Your tractor has been designed and built to give maximum performance, economy and ease of operation under a wide variety of operating conditions. Prior to delivery, the tractor was carefully inspected, both at the factory and by your dealer to ensure that it reaches you in optimum condition. To maintain this condition and ensure trouble—free operation, it is important that the routine services, as specified in Section 4 of this Manual, are carried out at the recommended intervals.

CLEANING THE TRACTOR

Your tractor is a state-of-the-art machine with user friendly controls. This should be borne in mind when cleaning the tractor, particularly if using a high pressure washer. Even though every precaution has been taken to safeguard electrical components and connections, the pressure generated by some of these machines is such that complete protection against water ingress can not be guaranteed.

When using a high pressure washer, do not stand too close to the tractor and avoid directing the jet at electronic components, electrical connections, breathers, seals, filler caps, etc. Never direct a cold water jet at a hot engine or exhaust.

SAFETY

Pages 1–5 to 1–18 inclusive list the precautions to be observed to ensure your safety and the safety of others. Read the safety precautions and follow the advice offered **before** operating the tractor.

FIRST 50 HOUR SERVICE

In Section 9, at the back of this Manual, you will find the 50-hour service reports.

After you have operated the tractor for 50 hours, take your tractor, together with this Manual, to your dealer. He will then perform the factory recommended 50—hour service and complete the service report sheets (pages 9–1 and 9–3). The first sheet (page 9–1) is the dealer's copy and should be removed by the dealer after the service has been carried out. The second sheet (page 9–3) is your copy of the service performed. **Ensure that you and the dealer sign both copies.**

SERVICE PARTS

It should be pointed out that genuine parts have been examined and approved by the Company. The installation and/or use of 'non-genuine' products could have negative effects upon the design characteristics of your tractor and thereby affect it's safety. The Company is not liable for any damage caused by the use of 'non-genuine' parts and accessories. Only genuine replacement parts should be used. The use of non-genuine parts may invalidate legal approvals associated with this product.

It is prohibited to carry out any modifications to the tractor unless specifically authorised, in writing, by the After Sales Service department of the Company.

WARRANTY

Your tractor is warranted according to legal rights in your country and the contractual agreement with the selling dealer. No warranty shall, however, apply if the tractor has not been used, adjusted and maintained according to the instructions given in the Operator's Manual.

SECTION 1 - INTRODUCTION AND SAFETY MEASURES

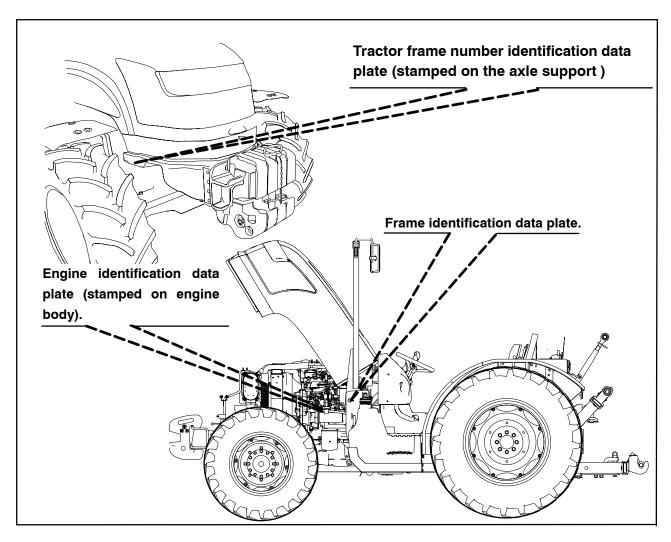

ABOUT THIS MANUAL

This Manual gives information for use of this tractor, as intended and under the conditions foreseen by the manufacturer during normal operation and routine service and maintenance.

- Normal operation means the use of the tractor for the purpose intended by the manufacturer by an operator
 familiar with the tractor and the mounted or towed equipment and complying with the information for operation
 and safe practices, as specified by the manufacturer in this Manual and by the signs on the tractor and the
 equipment.
- Normal operation includes the preparation and storage of the tractor, swinging components into work position and vice versa, adding or removing ballast and picking up and setting off attachments.
- Normal operation includes the adjustment and setting of the tractor and equipment, for the specific condition
 of the field and/or the crop.
- Routine service and maintenance means activities that must be done daily by an operator familiar with the
 tractor characteristics and complying with the information for routine service and safe practices, as specified
 by the manufacturer in this Manual and by signs on the tractor, in order to maintain its proper function. Routine
 service includes activities such as fuelling, cleaning, washing, topping up fluid levels, greasing, replacing of
 consumable articles such as lamp bulbs.
- This Manual is not giving all the information related to periodical service, converting and repairs to be carried
 out by professional service personnel. For some of the latter activities, there may be a need for appropriate
 facilities, technical skills and tools which are not supplied with the tractor, please refer to your dealer or
 authorised workshop.
- Periodical service means activities that must be done at defined intervals by trained personnel familiar with
 the tractor characteristics and which are complying with the information for periodical service and safe
 practices, as partly specified by the manufacturer in this Manual and in other Company literature, in order
 to maintain the expected life time of the tractor.
- Converting means activities that must be done by professional service personnel familiar with the tractor characteristics and complying with the information for converting, as partly specified by the manufacturer in this Manual, in assembly instructions or in other Company literature, in order to fit the tractor to a specific configuration.
- Repair means activities that must be done by professional service personnel only familiar with the tractor characteristics and complying with the information for repair, as specified by the manufacturer in the dealer's Workshop Manual, in order to restore the proper function of the tractor after a failure or degradation of performance.

TRACTOR IDENTIFICATION PLATES

Serial numbers identify the tractor and its main components. The identification data must be supplied by the dealer for requests for spare parts or service operations. Identification data is of fundamental importance in the event of theft of the tractor. The location of the various identification data is shown below.

Frame identification data plate

The Product Identification Number plate provides important information on tractor and towed equipment weight combinations. This plate can be found on the left-hand side of the rops support.

The figures shown are the maximum permissible vehicle and towing weights and should not be exceeded, to do so may affect the safe operation of the tractor. See Drawbars and Towing Attachments in Section 7.

ECOLOGY AND THE ENVIRONMENT

Soil, air and water are vital factors of agriculture and life in general. Where legislation does not yet rule the treatment of some of the substances which are required by advanced technology, common sense should govern the use and disposal of products of a chemical and petrochemical nature.

The following are recommendations which may be of assistance:

- Become acquainted with and ensure that you understand the relative legislation applicable to your country.
- Ask your suppliers of lubricants, oils, fuels, antifreeze, detergents, etc.. for information on the effects of these products on humans and the environment and for instructions concerning their use, storage and disposal. In many cases, local agricultural consultants will be able to provide assistance.

HELPFUL HINTS

- 1. Avoid filling tanks using unsuitable containers or inappropriate pressurised fuel delivery systems which may cause considerable spillage.
- 2. In general, avoid skin contact with all fuels, oils, acids, solvents, etc. Most of them contain substances which can be harmful to your health.

- Modern oils contain additives. Do not burn contaminated fuels and/or waste oils in ordinary heating systems.
- 4. Avoid spillage when transferring used engine cooling liquids, engine and transmission lubricants, hydraulic oils, brake fluids, etc.. Never mix used brake oil with fuel oil, or fuel oil with lubricants. Store safely until suitable disposal can be arranged according to national legislation or local regulations.
- Modern antifreeze liquids and solutions, e.g. antifreeze and other additives, must bereplaced every two years. They must not be left to be absorbed into the ground, but must be collected and disposed of in a suitable manner.
- 6. Repair any leaks or defects in the engine cooling or hydraulic system immediately.
- Do not increase the pressure in a pressurised circuit as this may lead to the components exploding.
- 8. Protect hoses during welding as penetrating weld splatter may burn a hole or weaken them, causing the loss of oils, coolant, etc.
- 9. Do not adjust the setting of the fuel delivery system as this will alter the emission of exhaust fumes.

NOTE: The engines installed on the tractors comply with anti–pollution legislation.

Thank you so much for reading. Please click the "Buy Now!" button below to download the complete manual.

After you pay.

You can download the most perfect and complete manual in the world immediately.
