PRECAUTIONARY STATEMENTS

PERSONAL SAFETY

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

Throughout this manual and on machine decals, you will find signal words **DANGER**, **WARNING**, and **CAUTION** followed by specific instructions. These precautions are intended for the personal safety of you and those working with you. Please take the time to read them.

DANGER indicates a hazardous situation which, if not avoided, will result in death or serious injury. The color associated with Danger is RED.

M1169A

WARNING indicates a hazardous situation which, if not avoided, could result in death or serious injury. The color associated with Warning is ORANGE.

M1170A

CAUTION, used with the safety alert symbol, indicates a hazardous situation which, if not avoided, could result in minor or moderate injury. The color associated with Caution is YELLOW.

M1171A

FAILURE TO FOLLOW DANGER, WARNING, AND CAUTION INSTRUCTIONS COULD RESULT IN DEATH OR SERIOUS INJURY.

MACHINE SAFETY

NOTICE: *NOTICE is used to address practices not related to personal safety. The color associated with Notice is BLUE.*

The signal word NOTICE is intended for machine safety. It is used throughout this manual followed by specific instructions to prevent machine damage. Failure to follow NOTICE messages could result in machine damage.

INFORMATION

NOTE: *NOTE is used to identify instructions that clarify steps, procedures, or other information in this manual.*

CNH America LLC Technical Manuals

Manuals are available from your Dealer for the operation, service, and repair of your machine. For prompt convenient service, contact your Dealer for assistance in obtaining the manuals for your machine.

Your Dealer can expedite your order for Operator's Manuals, Parts Catalogs, Service Manuals, and maintenance records.

Always give the Machine Name, Model, and P.I.N. (Product Identification Number) or S.N. (Serial Number) of your machine so your Dealer can provide the correct manuals for your machine.

The company is continually striving to improve its products and therefore reserves the right to make improvements and changes when it becomes practical and possible to do so, without incurring any obligation to make changes or additions to the equipment sold previously.

All data given in this manual is subject to production variations. OPERATING AND SERVICE MESSAGES DISPLAYED ON THE ELECTRONIC OPERATING PANEL MAY VARY FROM WHAT IS SHOWN IN THE OPERATOR'S MANUAL. SHOULD THIS OCCUR ADHERE TO THE LATEST INSTRUCTION ON THE ELECTRONIC OPERATING PANEL.

Dimensions and weights are approximate only and the illustrations do not necessarily show the machine in standard condition. For exact information about any particular machine, please consult your dealer.

HEALTH AND SAFETY RELATED STANDARDS APPLIED TO YOUR MACHINE

- Tractor Safety according to **ISO 26322-1**
- FOPS level on this tractor is certified according to **OECD Code 10**
- Cab is certified Category 2 according to **EN 15695-1**
- Noise Emission Levels are rated according to **77/311/EEC**
- Vibration Levels are rated according to **78/764/EEC**
- ROPS Protection inside cab is certified according to **EN 15694**

NOTE: Refer to further explanation and details on above mentioned standards within this manual.

Instruction Seat Protection inside ROPS cab is certified according to **EN 15694**

Safety Signs and hazard pictorials are certified according to **ISO 11684**

NOTE: *Refer to further explanation and details on above mentioned standards within this manual.*

GENERAL INFORMATION

Introduction to this Manual

This manual gives information for use of your T9000 Series Tractor, as intended and under the conditions foreseen by the manufacturer during normal operation and routine service and maintenance.

The manual is divided into ten sections as outlined in the General Table of Contents Page(s). Refer to the Detail Index at the end of this manual for locating specific items about your tractor.

Scope and Required Training Level

This manual gives information for use of your tractor, as intended and under the conditions foreseen by the manufacturer during normal operation and routine service and maintenance.

Normal operation consists of use of the tractor for the purpose intended by the manufacturer by an operator that is familiar with the tractor and the mounted or towed equipment, and who is complying with the information for operation and safe practices, as specified by the manufacturer in this manual and by the signs on the tractor and the equipment.

Normal operation includes such actions as the preparation and storage of the tractor, swinging components into work position and vice versa, adding or removing ballast, picking up and setting off mounted or towed equipment, and the adjustment and setting of the tractor and equipment for the specific condition of the field and/or the crop.

Routine service and maintenance consists of activities that must be performed daily in order to maintain proper tractor function by an owner/operator who is familiar with tractor characteristics, and who is complying with the information for routine service and safe practices, as specified by the manufacturer in this manual and by the decals on the tractor.

Routine service includes activities such as fueling, cleaning, washing, topping up fluid levels, greasing, and replacing consumable articles such as lamp bulbs.

Periodic service and maintenance are those actions which must be performed at regularly defined intervals to maintain proper tractor function by an owner/operator who is familiar with tractor characteristics, and who is complying with the information on periodic service and safe practices in this manual and in the decals on the tractor.

Periodic service and maintenance includes such actions as checking, cleaning and changing air filters, changing engine oil and filters, changing transmission oil and filters, changing axle and wheel hub fluids, changing coolant, etc.

Some actions in the periodic service and maintenance chart are beyond the knowledge and skills of the owner/operator: for example, engine valve adjustment, fuel injector nozzles. For these actions, the manual instructs the owner/operator to have the action performed by their authorized dealer.

This manual does not contain all the information related to periodical service, converting and repairs to be carried out professional service personnel. These actions require special facilities, technical skills, and/or tools which are not supplied with the machine.

Converting is changing the tractor configuration for a specific crop or soil condition and requires rebuilding or adding components to the vehicle: for example, installation of dual wheels. Repairing is the disassembly and assembly of the tractor to restore proper operation after a component failure or degradation of performance.

Read this manual before you start the engine or operate this tractor. If any information in this manual is not understood, or if you need more information or assistance, contact your dealer.

All persons training to operate, or who will be operating this tractor, should be old enough to possess a valid local vehicle operating permit (or other applicable local age requirement) and must have demonstrated the ability to operate and service the tractor correctly and safely.

Before permitting a new operator on this machine make sure:

1. That the operator is qualified to operate the machine correctly and safely.
2. That the operator has read and understood the instructions given in this manual.

Statement of Tractor Intended Use

The T9000 Series Tractor, with standard equipment and authorized attachments, is intended to be used for customary farming, land leveling and related agriculture operations. This tractor is not intended for forestry use or for use with loaders. The cab on this tractor does not offer sufficient protection for forestry work.

Installation of utility (dozer) blades, tile plows, front loaders or push bars on the tractor is not approved. Any tractor damage resulting from the installation and/or use of such equipment is not covered by the tractor warranty.

DO NOT use this machine for any purpose or in any manner other than as described in the manual, decals or other product safety information provide with the machine. These materials define the machine's intended use.

If your tractor requires replacement parts, do not use unauthorized parts or substitute materials. New Holland dealers stock New Holland approved service parts and have technicians with special training that know the best methods of repair and maintenance for your tractor.

ATTENTION: *The engine and fuel system on your machine is designed and built to government emissions standards. Tampering by dealer, customers, operators and users is **strictly prohibited by law**. Failure to comply could result in government fines, rework charges, invalid warranty, legal action and possible confiscation of the machine until rework to original condition is completed. Engine service and/or repairs must be done by a certified technician only!*

ALWAYS:

- Always wear the seat belt.
- Use only matching and compatible equipment
- Respect dynamic stability limits (speed, slope, adherence, abrupt cornering....)
- Download only approved/recommended software.

Operator Manual Storage Compartment

MK99H025

DO NOT permit anyone to operate or service this tractor until you or other operators have read this manual. The Operator's Manual is a part of your tractor and must be available to all operators.

Make sure the manual is complete and in good condition. Store the Operator's Manual and other important tractor information in the storage compartment provided on the rear side of the seat backrest.

Official Documents

A "EC" declaration of conformity

IMPORTANT: *An original of this "EC" declaration is supplied with each machine and must be kept carefully by the owner.*

IMPORTANT: *The official documents supplied with the machine must be kept by the owner so as to be able to present them to any inspecting authority which may request them.*
