Safety

RECOGNIZE SAFETY INFORMATION

This is the safety-alert symbol. When you see this symbol on your machine or in this manual, be alert to the potential for personal injury.

Follow recommended precautions and safe operating practices.

DX,ALERT -19-03MAR93

T81389 -UN-07DEC68

FOLLOW SAFETY INSTRUCTIONS

Carefully read all safety messages in this manual and on your machine safety signs. Keep safety signs in good condition. Replace missing or damaged safety signs. Be sure new equipment components and repair parts include the current safety signs. Replacement safety signs are available from your John Deere dealer.

Learn how to operate the machine and how to use controls properly. Do not let anyone operate without instruction.

Keep your machine in proper working condition. Unauthorized modifications to the machine may impair the function and/or safety and affect machine life.

If you do not understand any part of this manual and need assistance, contact your John Deere dealer.

DX,READ -19-03MAR93

T5201 -UN-23AUG88

UNDERSTAND SIGNAL WORDS

A signal word—DANGER, WARNING, or CAUTION—is used with the safety-alert symbol. DANGER identifies the most serious hazards.

DANGER or WARNING safety signs are located near specific hazards. General precautions are listed on CAUTION safety signs. CAUTION also calls attention to safety messages in this manual.

DX,SIGNAL -19-03MAR93

T5187 -19-30SEP88

OBSERVE ROAD TRAFFIC REGULATIONS

Always observe local road traffic regulations when using public roads.

H28930 -UN-30JUN89

FX,ROAD -19-01MAY91

TRANSPORT SAFELY

Never tow the mower-conditioner faster than 25 km/h (15.5 mph).

Be sure reflectors and warning lights are clean and visible.

Before transporting mower-conditioner, fully raise and secure platform. Move the mower-conditioner tongue to transport position.

CC,1350MC001787-19-23AUG94

STORE ATTACHMENTS SAFELY

Stored attachments such as dual wheels, cage wheels, and loaders can fall and cause serious injury or death.

Securely store attachments and implements to prevent falling. Keep playing children and bystanders away from storage area.

TS219 -UN-23AUG88

DX,STORE -19-03MAR93

PREPARE FOR EMERGENCIES

Be prepared if a fire starts.

Keep a first aid kit and fire extinguisher handy.

Keep emergency numbers for doctors, ambulance service, hospital, and fire department near your telephone.

DX.FIRE2 -19-03MAR93

TS291 -UN-23AUG88

WEAR PROTECTIVE CLOTHING

Wear close fitting clothing and safety equipment appropriate to the job.

Prolonged exposure to loud noise can cause impairment or loss of hearing.

Wear a suitable hearing protective device such as earmuffs or earplugs to protect against objectionable or uncomfortable loud noises.

Operating equipment safely requires the full attention of the operator. Do not wear radio or music headphones while operating machine.

DX.WEAR -19-10SEP90

TS206 -UN-23AUG88

CHECK MACHINE SAFETY

Always check the road and general operating safety of the machine before using.

FX.READY -19-28FEB91

STAY CLEAR OF ROTATING DRIVELINES

Entanglement in rotating driveline can cause serious injury or death.

Keep tractor master shield and driveline shields in place at all times. Make sure rotating shields turn freely.

Wear close fitting clothing. Stop the engine and be sure PTO driveline is stopped before making adjustments, connections, or cleaning out PTO driven equipment.

DX,PTO -19-12SEP95

TS1644 -UN-22AUG95

OPERATE SAFELY

- Keep all curtains and shields in place.
- Never hand feed material into the machine.
- Do not lean against or sit or stand on the cutterbar curtains or their supporting framework.
- Do not operate mower-conditioner with cutterbar in raised position.
- Regularly check that disk and knife bolts are tight; also verify that tines are securely mounted on rotor.
- Always operate the machine at rated speed.
- Drive slowly over rough ground.
- Provide sufficient weight to stabilize the tractor when operating on hilly land or other adverse conditions. See your tractor operator's manual.

TS288

CC9185 -UN-07FEB95

CC9185

AVOID INJURY FROM THROWN OBJECTS

Extreme care must be exercised to avoid injury from thrown objects. Do not, under any circumstances, operate the mower-conditioner when other people are in the vicinity. Stones and other objects can be thrown great distances by the rotating cutting blades.

The cutterbar curtains are very important to reduce the potential for thrown objects. Always keep these curtains down when operating the mower-conditioner. Replace the curtains if they should become worn or damaged.

For additional operator protection from thrown objects, it is requested that the mower-conditioner be used only with tractors having an operator enclosure.

TS265 -UN-23AUG68

CC.MOCOUS000605-19-05OCT92

USE SAFETY LIGHTS AND DEVICES

Prevent collisions between other road users, slow moving tractors with attachments or towed equipment, and self-propelled machines on public roads. Frequently check for traffic from the rear, especially in turns, and use hand signals or turn signal lights.

Use headlights, flashing warning lights, and turn signals day and night. Follow local regulations for equipment lighting and marking. Keep lighting and marking visible and in good working order. Replace or repair lighting and marking that has been damaged or lost. An implement safety lighting kit is available from your John Deere dealer.
